
Call to support survey-based projects on the social impact of Covid-19 in Portugal

Call reference: (LL20-04)

Resolution

The aim of the call was to support survey-based research that allows data to be obtained on the impact of the COVID-19 pandemic on Portuguese society.

The call was open to research projects that could complete the entire path from hypotheses to conclusions within a maximum period of 6 months and present the results of the research in an outreach article to be published by the Social Observatory of "la Caixa".

The selection process of the proposals received was conducted by academic experts from the field of social sciences. The projects remained anonymous throughout the evaluation process.

Selected projects:

Title	Institution	Project leader
Health and well-being of the Portuguese citizens: impacts of the COVID-19	Universidade do Algarve	Lara Palmira Gomes Medeiros Nobre de Noronha e Ferreira
"To take or not to take?": Perceptions of the Portuguese Population on Covid-19 Vaccination	Universidade de Aveiro	Maria Teresa Herdeiro
The social impact of Infection Prevention and Control on residential structure for the elderly during COVID-19 crisis	Politécnico de Leiria	Sónia Gonçalves Pereira

Evaluators:

Diana Bonfim Banco de Portugal
Lénia Mestrinho Nova School of Business and Economics (Portugal)
Miquel Requena Universidad Nacional de Educación a Distancia (Spain)
Tim Riffe Max Planck Institute for Demographic Research (Germany)
